

To the Members of the California State Assembly:

I am signing Assembly Bill 2778.

This bill extends the sunset on the Self Generation Incentive Program to promote distributed generation throughout California. However, the legislation eliminated clean combustion technologies like microturbines from the program.

I look forward to working with the legislature to enact legislation that returns the most efficient and cost effective technologies to the program. If clean up legislation is not possible, the California Public Utilities Commission should develop a complimentary program for these technologies.

Sincerely,

Arnold Schwarzenegger
